

Wales, United Kingdom

Environmental Study of
Sustainable Places
May 23-June 6, 2025

WALES – a nation widely recognized for its integrated sustainability practices through its policies, institutions, economy, and culture

Join an established SMC Academic Study Trip that offers field studies, guest lectures, and exchange of ideas with University of Wales-Trinity Saint David students and faculty. The Carmarthen campus of UWTSD serves as the program base and is a short walk from downtown Carmarthen, the oldest city in Wales, and the birthplace of the mythical magician Merlin. This location provides easy access to the Welsh Assembly in Cardiff, economic and cultural hubs, and day hikes through the Brecon Beacons and Snowdonia National Park and the Welsh Coastal Path.
